

arc40X made by 

## Hardware

### Installation area (D x W x H) in mm

2300 x 3000 x 3100

### Dimension component part (L x W x H) in mm

arc403: 720 x 900 x 1250

arc405: Table position 1:  $\varnothing = 400 \times 650$  \*

Table position 2:  $\varnothing = 720 \times 450$  \*

\* When using the maximum swivel range of 90°

### Table payload in kg

max. 150

### Linear Axes

Linear speed (x - y - z) in m/min: 10 - 10 - 5

## Benefits

- Flexible space requirements
  - Option 1: 3 accesses  
→ Space requirement is reduced
  - Option 2: 4 accesses  
→ More flexible machine use
- Flexible table positioning
- Simple and comfortable table change
- Higher speeds and acceleration of the linear axes
- Larger built-up volume
- Optimized maintenance and protection of the machine components due to separated aggregate cabinet
